CHARING HEALTHCARE

committed to care and support

13 MAY 2011

MC/16/2201

To whom this may concern,

I am writing to you from Charing Healthcare regarding this submitted application to discharge all conditions (1-10) on planning application MC/11/0719.

This development has been completed for some time now and it has come to our attention that these conditions have not been formally discharged. Therefore see attached 1 X Original and 3 X copies of application form to discharge these conditions. Also attached is evidence that these conditions have been met and specific details to show we comply with these conditions. Below are details of why the conditions should be discharged.

Condition 1 – We feel this condition should not be applicable due to this not being a requirement on the original planning application for the main building (on the municipal building site) or a requirement for the pagoda building where the majority of sound comes from.

Condition 2 – No unexpected contamination found after the development begun.

Condition 3 – No contamination found. Therefore not applicable.

Condition 4 – No contamination found. Therefore not applicable.

Condition 5 – No contamination found. Therefore not applicable.

Condition 6 – No contamination found. Therefore not applicable.

Condition 7 – Please see attached signed off building control certificate.

Condition 8 – Development works finished therefore not applicable.

Condition 9 – The mansard roof this condition is referring to was not built. Therefore deed of variation not submitted and this condition is not applicable.

Condition 10 – Approved plans followed.

As you will see many of the conditions are not applicable (due to contamination not being found) and building works being completed. Therefore could I request for all the above conditions to be discharged.

Cobham Terrace, Bean Road, Greenhithe, Kent. DA9 9JB.
